KLM 2601 Pro
Enjoy Coffee Aroma with a simple touch

Certifications & Awards

KLM 2601 Pro is an advanced version of KLM 2601, suited to cater to dispense more cups of coffee. Designed to cater up to 60 cups of coffee per day, **KLM 2601 Pro** is the ideal machine for office use. Cater to grind 8-14 grammage of coffee per shot, it allows the flexibility to customise each cup for different drinkers. Furthermore, the compact size and sophisticated design would fit well with simple modern office design, adding to be the functional accessory your office can have.

Cleaning

KLM 2601 Pro is designed to be highly functional, and easy to be cared for. Built-in with one touch cleaning function, it is highly user friendly. The cleaning and maintenance programmes require little effort to maintain, **KLM 2601 Pro** notification technology will prompt cleaning message to ensure the hygiene of the machine

Customisation

Kalerm provides wide selection of accessories to go well with **KLM 2601 Pro** to fit different user requirements. The machine also allows customisation of each cup of beverage, with the navigation function of coffee strength and milk/cream dispensing time.
